HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system–

Title		Division	Chapter	Rule
3	CSR	10-	4	.115
Department	<i>Code of State Regulations</i>	Agency Division	General area regulated	Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation, for example, 3 CSR 10-4.115 NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is www.sos.mo.gov/adrules/csr/csr

The *Register* address is www.sos.mo.gov/adrules/moreg/moreg

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

Rules appearing under this heading are filed under the authority granted by section 536.025, RSMo 2016. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the *Missouri* and the *United States Constitutions*; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

Rules filed as emergency rules may be effective not less than ten (10) days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the *Missouri Register* as soon as practicable.

All emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

Title 1—OFFICE OF ADMINISTRATION Division 40—Purchasing and Materials Management Chapter 1—Procurement

EMERGENCY AMENDMENT

1 CSR 40-1.050 Procedures for Solicitation, Receipt of Bids, and Award and Administration of Contracts. The division is amending section (10).

PURPOSE: *This amendment changes the bonus points awarded for utilization of blind and sheltered workshops in state contracting.*

EMERGENCY STATEMENT: *This emergency amendment informs state agencies and potential vendors that the awarding of bonus points under section 34.165, RSMo has been changed due to the passage of House Bill 1879 of 2018. This emergency amendment is necessary to protect governmental interests as the statute requires these bonus points for state contract solicitations to be set by regulation, and without this emergency amendment, such points cannot be awarded during the evaluation process. As a result, the Division of Purchasing finds a compelling governmental interest, which requires this emergency action. A proposed amendment covering this same material will be filed at a later date to be published in the *Missouri Register*. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the *Missouri* and *United States Constitutions*. The Division of Purchasing believes this emergency amendment is fair to*

all interested persons and parties under the circumstances. This emergency amendment was filed September 5, 2018, becomes effective September 15, 2018, and expires March 13, 2019.

(10) Section 34.165, RSMo, provides for a *[ten- (10-)] five to fifteen (5-15)* point bonus on bids/proposals submitted by qualified nonprofit organizations for the blind and qualified sheltered workshops, if the participating organization provides, **at a minimum**, the greater of two percent (2%) or five thousand dollars (\$5,000) of the total contract value of bids/proposals for a purchase not exceeding ten (10) million dollars.

(E) If all requirements are met, the bidder/offeree shall receive a *[ten (10)] five to fifteen (5-15)/-* point bonus to a bid/proposal meeting specifications or bid/proposal that includes subjective or other criteria deemed in the best interest of the state and provided in the solicitation document.

1. A sliding scale for the award of points shall range from a minimum of five (5) points to a maximum of fifteen (15) points. The award of the minimum five (5) points shall be based on the bid/proposal containing a commitment that the participating nonprofit organization or workshop is providing the greater of two percent (2%) or five thousand dollars (\$5,000) of the total contract value of bids for purchase not exceeding ten (10) million dollars.

2. Where the commitment in the bid/proposal exceeds the minimum level set forth in section 34.165, RSMo to obtain five (5) points, the awarded points shall exceed the minimum five (5) points, up to a maximum of fifteen (15) points. As the statute sets out a minimum of five (5) points for a minimum two percent (2%) commitment, each percent of commitment is worth two and one-half (2.5) points. The formula to determine the awarded points for commitments above the two percent (2%) minimum shall be calculated based on the commitment in the bid/proposal (expressed as a number, not as a percentage) times two and one-half (2.5) points:

Vendor's Commitment Number x 2.5 points = Awarded Points

Examples: A commitment of three percent (3%) would be calculated as: $3 \times 2.5 \text{ points} = 7.5 \text{ awarded points}$. A commitment of five and one-half percent (5.5%) would be calculated as: $5.5 \times 2.5 \text{ points} = 13.75 \text{ awarded points}$. If, instead of a percentage, an offeror's bid/proposal lists a dollar figure that is over the minimum amount, the dollar figure shall be converted into the percentage of the offeror's total contract value for calculation of the awarded points. Commitments at or above six percent (6%) receive the maximum of fifteen (15) points.

AUTHORITY: *sections 34.050, [RSMo 2000,] and [section] 34.074, RSMo [Supp. 2013] 2016. Original rule filed Oct. 15, 1992, effective June 7, 1993. For intervening history, please consult the Code of State Regulations. This emergency amendment was filed Sept. 5, 2018, becomes effective Sept. 15, 2018, expires March 13, 2019. A proposed amendment covering this same material will be filed at a later date to be published in the *Missouri Register*.*

Title 19—DEPARTMENT OF HEALTH AND SENIOR SERVICES Division 10—Office of the Director Chapter 10—Vital Records

EMERGENCY AMENDMENT

19 CSR 10-10.130 Missouri Adoptee Rights. The Department of

Health and Senior Services is amending sections (1), (2), (3), (5), (7), (8), and (10), adding new sections (4), (6), (9), and (11), deleting previous section (5), and renumbering as necessary.

PURPOSE: *This rule is being amended to provide the process for the birth parent to receive a copy of the adoptee original birth certificate, the process for an adoptee to state his or her preference regarding whether and how the birth parent can contact him or her, and provide the process for lineal descendants of a deceased adoptee to receive a copy of the adoptee's original birth certificate.*

EMERGENCY STATEMENT: *The Missouri Adoptee Rights Act was established in August 2016, and includes sections 193.125 and 193.128, RSMo. In August 2016, adoptees or adoptees' attorneys were allowed to obtain copies of adoptees' original birth certificates and birth parents of adoptees were able to file contact preference forms, which accompany the original birth certificates. Senate Committee Substitute for House Committee Substitute for House Bill 1713, 99th General Assembly, Second Regular Session (2018), went into effect on August 28, 2018. This act amends section 193.128, RSMo, to allow birth parents to obtain copies of adoptees' original birth certificates and to allow lineal descendants of deceased adoptees to obtain copies of deceased adoptees' original birth certificates, accompanying contact preference forms, and medical history forms. In addition, beginning August 28, 2018, adoptees may file contact preference forms indicating they wish to be contacted directly, do not wish to be contacted, or only wish to be contacted through an intermediary. In order to implement and comply with the new law on August 28, 2018, this rule must be amended and the forms must be available on August 28, 2018, or as soon as possible thereafter. As a result of the immediate effective date, the Department of Health and Senior Services finds a compelling governmental interest which requires an early effective date for this rule. A proposed amendment, which covers the same material, is published in this issue of the Missouri Register. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. The Department of Health and Senior Services believes this emergency amendment is fair to all interested persons and parties under these circumstances. This emergency amendment was filed September 10, 2018, becomes effective September 20, 2018, and expires March 18, 2019.*

Division 30—Division of Regulation and Licensure Chapter 1—Controlled Substances

EMERGENCY AMENDMENT

19 CSR 30-1.023 Registration Changes. The department is amending sections (1) and (2).

PURPOSE: This amendment allows authorized registrants to modify their registration to allow the collection of unwanted controlled substances.

EMERGENCY STATEMENT: Opioid abuse is a public health crisis in Missouri and throughout the country. In 2016, there was a thirty-five percent (35%) increase in opioid overdose deaths over 2015. During 2016, one (1) out of every sixty-six (66) deaths was opiate related. Additionally, the number of infants born with opiate-related natal abstinence syndrome is increasing. Studies have found that a large percentage of people who abuse controlled substances get those substances from family members, homes, and leftover prescriptions. One (1) way to impact the opioid crisis is to provide methods for safe, efficient disposal of extra or unwanted controlled substances, including opioids, so that they are not diverted. Prior to portions of Senate Bill 826 (2018) taking effect, Missouri's controlled substance law prohibited collection of controlled substances by registrants who had not originally prescribed the substance. This meant that pharmacies

and other registrants could not maintain collection receptacles for disposal of unwanted controlled substances by customers and patients. Drug take-back events were allowed, and four (4) such events collected tens of thousands of pounds of drugs during 2016 and 2017. Now that Senate Bill 826 (2018) is in effect, amendments to this regulation are necessary to implement the provisions of the bill so that registrants can begin maintaining collection receptacles as soon as possible. Without such receptacles, people who wish to properly dispose of controlled substances must retain them in their homes until a take-back event is held, increasing the risk that the substances will be diverted before they can be disposed. This rule is necessary to prescribe a process for controlled substance registrants to amend their controlled substance registrations to authorize them to collect unwanted controlled substance prescription medications. This emergency amendment is necessary for the immediate protection of the public health, safety, and welfare due to the current opioid crisis. The department finds a compelling governmental interest in protecting public health and safety from the opioid crisis, which requires this emergency action. A proposed amendment, which covers the same material, is published in this issue of the *Missouri Register*. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the *Missouri and United States Constitutions*. The department believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed September 17, 2018, becomes effective September 27, 2018, and expires March 25, 2019.

(1) Modification of Registration.

(A) Any registrant may apply to modify his/her registration to authorize the handling of controlled substances in additional schedules by submitting a request in writing to the department. No fee shall be required to be paid for the modification. The application for modification shall be handled in the same manner as an application for registration.

(B) Any registrant may request to modify his or her name or address as shown on the registration provided that such a modification does not constitute a change of ownership or location. The request shall be made in writing[,] and no fee shall be required to be paid for the modification. The request for changes may be submitted electronically using the department's online database system. Requests submitted in paper form shall contain the registrant's signature.

(C) When the registrant's name or address as shown on the registration changes, the registrant shall notify the Department of Health and Senior Services in writing, including the registrant's signature, prior to or within thirty (30) days subsequent to the effective date of the change. No fee shall be required to be paid for the modification.

(D) **Collector of Unwanted Controlled Substances.** A current registrant with the department may request to have their registration modified to authorize the collection of unwanted controlled substances. Requests shall be submitted in writing to the Bureau of Narcotics and Dangerous Drugs, PO Box 570, Jefferson City, Missouri, 65102-0570. Requests shall provide the requesting registrant's name, address, and current Missouri Controlled Substances Registration number. Requests shall identify the method of collection such as either a collection receptacle box or mail-back return system, or both, and shall identify the exact physical address of the receptacle. Collection receptacles located in long-term care facilities shall be maintained by a retail pharmacy. The bureau will respond to the registrant's request in writing. Registrants authorized by the department to collect unwanted controlled substances shall comply with all requirements for record keeping and security in accordance with federal regulations. The privilege of being a collector may be terminated if the registrant's authority to collect is terminated by the United States Drug Enforcement Administration, a judicial order, an act by a state licensing board or agency, or if the collector's registration is restricted as a matter of public discipline by the department. An authorized collector who wishes to cease being a collector shall

notify the bureau in writing of the date that collections will cease.

(2) Termination of Registration.

(A) The registration of any person shall terminate—

1. On the expiration date assigned to the registration at the time the registration was issued;

2. If and when the person dies;

3. If and when the person ceases legal existence;

4. If and when a business changes ownership, except—

A. The registration shall not terminate for thirty (30) days from the effective date of the change if the new owner applies for a registration within the thirty- (30-)/- day period and the corresponding Drug Enforcement Administration registration remains effective as provided for by the Drug Enforcement Administration;

5. If and when the person discontinues business or changes business location, except—

A. The registration shall not terminate for thirty (30) days from the effective date of the change if the person applies for a new registration or modification within the thirty- (30-)/- day period; or

6. Upon the written request of the registrant.

Amended: Filed April 29, 2011, effective Nov. 30, 2011. Emergency amendment filed Sept. 17, 2018, effective Sept. 27, 2018, expires March 25, 2019. Chapter 1—Controlled Substances**

EMERGENCY AMENDMENT

19 CSR 30-1.064 Partial Filling of [Schedule II] Controlled Substance Prescriptions. The department is modifying the title of the rule, eliminating section (2), and adding a new section (2).

PURPOSE: This amendment establishes conditions under which the partial filling of prescriptions in Schedules II, III, IV, or V is permissible.

EMERGENCY STATEMENT: Opioid abuse is a public health crisis in Missouri and throughout the country. In 2016, there was a thirty-five percent (35%) increase in opioid overdose deaths over 2015. During 2016, one (1) out of every sixty-six (66) deaths was opiate related. Additionally, the number of infants born with opiate-related natal abstinence syndrome is increasing. Studies have found that a large percentage of people who abuse controlled substances get those substances from family members, homes, and leftover prescriptions. One (1) way to impact the opioid crisis is to allow for the partial filling of controlled substance prescriptions and/or reducing the number of leftover doses from fully-filled prescriptions. Reducing the number of leftover doses will reduce the potential for diversion of controlled substances. This emergency amendment is necessary for the immediate protection of the public health, safety, and welfare due to the current opioid crisis. The department finds a compelling governmental interest in protecting public health and safety from the opioid crisis, which requires this emergency action. A proposed amendment, which covers the same material, is published in this issue of the Missouri Register. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. The Division of Regulation and Licensure believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed September 17, 2018, becomes effective

September 27, 2018, and expires March 25, 2019.

[(2) A prescription for a Schedule II controlled substance written for a patient in a long-term care facility (LTCF) or for a patient with a medical diagnosis documenting a terminal illness, may be filled in partial quantities to include individual dosage units. If there is any question whether a patient may be classified as having a terminal illness, the pharmacist must contact the practitioner prior to partially filling the prescription. Both the pharmacist and the prescribing practitioner have a corresponding responsibility to assure that the controlled substance is for a terminally ill patient. The pharmacist must record on the prescription whether the patient is "terminally ill" or an "LTCF patient." A prescription that is partially filled and does not contain the notation "terminally ill" or "LTCF patient" shall be deemed to have been filled in violation of Chapter 195, RSMo. For each partial filling, the dispensing pharmacist shall record on the back of the prescription (or on another appropriate record, uniformly maintained and readily retrievable) the date of the partial filling, quantity dispensed, remaining quantity authorized to be dispensed, and the identification of the dispensing pharmacist. The total quantity of Schedule II controlled substances dispensed in all partial fillings must not exceed the total quantity prescribed. Schedule II prescriptions for patients in an LTCF or patients with a medical diagnosis documenting a terminal illness, shall be valid for a period not to exceed sixty (60) days from the issue date unless sooner terminated by the discontinuance of medication.]

(2) The partial filling of a prescription for controlled substances listed in Schedules II, III, IV, or V is permissible, provided that:

(A) Partial filling may occur at the request of a patient or it may be directed by the prescriber;

(B) Each partial dispensing is recorded in the same manner as a refilling would be;

(C) With each partial dispensing, the pharmacy must document the date and quantity dispensed on the original prescription record or their approved electronic computer applications, provided that the electronic system meets all of the federal requirements for handling of electronic prescriptions for controlled substances, including the ability to retrieve the information pertaining to partially filled controlled substances;

(D) The total quantity dispensed in all partial fillings cannot exceed the total quantity prescribed;

(E) No dispensing occurs after six (6) months after the date on which the original prescription was issued;

(F) A partial dispensing is not considered a "refill" if the patient does not receive the full authorized amount at one (1) time; and

(G) The prescription was written and filled in accordance with all other applicable laws and regulations.

AUTHORITY: sections 195.050 and 195.195, RSMo [1994] Supp. 2018. Original rule filed April 14, 2000, effective Nov. 30, 2000. Emergency amendment filed Sept. 17, 2018, effective Sept. 27, 2018, expires March 25, 2019. A proposed amendment covering this same material is published in this issue of the Missouri Register.

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

- Based on the number of requests for adoptee original birth certificates received from October 2017-March 2018 and factoring that request by 25%, it is estimated that 1,375 requests for birth certificates by birth parents will be made each year. DHSS shall collect a \$15 non-refundable fee per application for a copy of an original birth certificate received.
- Based on the number of Birth Parent Contact Preference Forms received, DHSS estimates that 1,200 Adoptee Contact Preference forms will be filed with DHSS

each year. DHSS shall collect a \$15 non-refundable fee for each Adoptee Contact Preference Form filed.

- Based on the number of phone calls received each month inquiring about receiving a copy of an original birth certificate for a deceased adoptee, DHSS estimates receiving 3,168 requests per year (264×12 months). DHSS shall collect a \$15 non-refundable fee per application for a copy of an original birth certificate received.

19 CSR 30-1.023 Registration Changes. The department is amending sections (1) and (2).

PURPOSE: This proposed rule amendment allows authorized registrants to modify their registration to allow the collection of unwanted controlled substances.

(1) Modification of Registration.

(A) Any registrant may apply to modify his/her registration to authorize the handling of controlled substances in additional schedules by submitting a request in writing to the department. No fee shall be required to be paid for the modification. The application for modification shall be handled in the same manner as an application for registration.

(B) Any registrant may request to modify his or her name or address as shown on the registration provided that such a modification does not constitute a change of ownership or location. The request shall be made in writing[,] and no fee shall be required to be paid for the modification. The request for changes may be submitted electronically using the department's online database system. Requests submitted in paper form shall contain the registrant's signature.

(C) When the registrant's name or address as shown on the registration changes, the registrant shall notify the Department of Health and Senior Services in writing, including the registrant's signature, prior to or within thirty (30) days subsequent to the effective date of the change. No fee shall be required to be paid for the modification.

(D) **Collector of Unwanted Controlled Substances.** A current registrant with the department may request to have their registration modified to authorize the collection of unwanted controlled substances. Requests shall be submitted in writing to the Bureau of Narcotics and Dangerous Drugs, PO Box 570, Jefferson City, Missouri, 65102-0570. Requests shall provide the requesting registrant's name, address, and current Missouri Controlled Substances Registration number. Requests shall identify the method of collection such as either a collection receptacle box or mail-back return system, or both, and shall identify the exact physical address of the receptacle. Collection receptacles located in long-term care facilities shall be maintained by a retail pharmacy. The bureau will respond to the registrant's request in writing. Registrants authorized by the department to collect unwanted controlled substances shall comply with all requirements for record keeping and security in accordance with federal regulations. The privilege of being a collector may be terminated if the registrant's authority to collect is terminated by the United States Drug Enforcement Administration, a judicial order, an act by a state licensing board or agency, or if the collector's registration is restricted as a matter of public discipline by the department. An authorized collector who wishes to cease being a collector shall notify the bureau in writing of the date that collections will cease.

(2) Termination of Registration.

(A) The registration of any person shall terminate—

1. On the expiration date assigned to the registration at the time the registration was issued;
2. If and when the person dies;
3. If and when the person ceases legal existence;
4. If and when a business changes ownership, except—

A. The registration shall not terminate for thirty (30) days from the effective date of the change if the new owner applies for a

registration within the thirty- (30-)/- day period and the corresponding Drug Enforcement Administration registration remains effective as provided for by the Drug Enforcement Administration;

5. If and when the person discontinues business or changes business location, except—

A. The registration shall not terminate for thirty (30) days from the effective date of the change if the person applies for a new registration or modification within the thirty- (30-)/- day period; or

6. Upon the written request of the registrant.

PROPOSED AMENDMENT

19 CSR 30-1.064 Partial Filling of [Schedule II] Controlled Substance Prescriptions. The department is modifying the title of the rule, eliminating section (2), and adding a new section (2).

PURPOSE: This proposed rule amendment establishes conditions under which the partial filling of prescriptions in Schedules II, III, IV, or V is permissible.

[(2) A prescription for a Schedule II controlled substance written for a patient in a long-term care facility (LTCF) or for a patient with a medical diagnosis documenting a terminal illness, may be filled in partial quantities to include individual dosage units. If there is any question whether a patient may be classified as having a terminal illness, the pharmacist must contact the practitioner prior to partially filling the prescription. Both the pharmacist and the prescribing practitioner have a corresponding responsibility to assure that the controlled substance is for a terminally ill patient. The pharmacist must record on the prescription whether the patient is "terminally ill" or an "LTCF patient." A prescription that is partially filled and does not contain the notation "terminally ill" or "LTCF patient" shall be deemed to have been filled in violation of Chapter 195, RSMo. For each partial filling, the dispensing pharmacist shall record on the back of the prescription (or on another appropriate record, uniformly maintained and readily retrievable) the date of the partial filling, quantity dispensed, remaining quantity authorized to be dispensed, and the identification of the dispensing pharmacist.

The total quantity of Schedule II controlled substances dispensed in all partial fillings must not exceed the total quantity prescribed. Schedule II prescriptions for patients in an LTCF or patients with a medical diagnosis documenting a terminal illness, shall be valid for a period not to exceed sixty (60) days from the issue date unless sooner terminated by the discontinuance of medication.]

(2) The partial filling of a prescription for controlled substances listed in Schedules II, III, IV, or V is permissible, provided that:

(A) Partial filling may occur at the request of a patient or it may be directed by the prescriber;

(B) Each partial dispensing is recorded in the same manner as a refilling would be;

(C) With each partial dispensing, the pharmacy must document the date and quantity dispensed on the original prescription record or their approved electronic computer applications, provided that the electronic system meets all of the federal requirements for handling of electronic prescriptions for controlled substances, including the ability to retrieve the information pertaining to partially filled controlled substances;

(D) The total quantity dispensed in all partial fillings cannot exceed the total quantity prescribed;

(E) No dispensing occurs after six (6) months after the date on which the original prescription was issued;

(F) A partial dispensing is not considered a "refill" if the patient does not receive the full authorized amount at one (1) time; and

(G) The prescription was written and filled in accordance with all other applicable laws and regulations.

Chapter 1—Controlled Substances**

PROPOSED AMENDMENT

19 CSR 30-1.078 Disposing of Unwanted Controlled Substances. The department is amending sections (1) and (3), and repealing sections (2) and (4), to be replaced with new sections (2) and (4).

PURPOSE: This amendment establishes the process for authorized registrants to collect unwanted controlled substances through collection receptacles or a mail-back program and amends requirements for destruction of controlled substances by registrants.

(1) A registrant in possession of any controlled substance(s) and desiring or required to dispose of such substance(s) shall:

(A) Return the controlled substance(s) to the original supplier;

(B) Transfer the controlled substance(s) to a distributor authorized to accept controlled substance(s) for the purpose of disposal;

(C) Submit a DEA Form 41 to the federal Drug Enforcement Administration (DEA) requesting authorization to dispose of the controlled substance(s) in compliance with federal regulations;

(D) Become an Authorized Collector of Controlled Substance(s). Registrants shall dispose of all unwanted controlled substance(s) and keep records in accordance with federal regulations. Only manufacturers, distributors, reverse distributors, narcotic treatment programs, hospitals, and retail pharmacies that have modified their state and federal controlled substances registrations may possess a collection receptacle for medication disposal or participate in the DEA approved mail-back system;

[(D)](E) Contact the Bureau of Narcotics and Dangerous Drugs (BNDD), Department of Health and Senior Services for information pertaining to subsections (1)(A), (B), [or] (C), or (D) of this rule.

[(2) The return, transfer or disposal of any controlled substance shall be documented in accordance with 19 CSR 30-1.044.]

(2) Destruction of controlled substance(s) in patient care areas.

(A) Controlled substance(s) that have been contaminated by patient contact are to be destroyed on site. An excess volume of a controlled substance which must be discarded from a dosage unit just prior to administration shall also be destroyed on site.

(B) Controlled substances that have not been contaminated by patient contact or are not excess volumes of a dosage unit shall not be destroyed on site unless the registrant has obtained authorization from the United States Drug Enforcement Administration to destroy such drugs and destruction is documented on the DEA Form 41. Unwanted controlled substances that have been expired, discontinued, or are otherwise unwanted shall be disposed of by methods listed previously in section (1) of this rule.

(C) In a hospital patient care area, unwanted controlled substance(s) that have not been contaminated by patient contact shall be returned to the pharmacy for final disposal.

(D) The destruction of controlled substance(s) shall be in such a manner that it renders the medication unrecoverable and beyond reclamation so that it cannot be diverted.

(E) The destruction and documentation of destruction shall be performed and completed by two (2) people. One (1) of the people must be a licensed physician, nurse, pharmacist, intern pharmacist, pharmacy technician, assistant physician, physician assistant, podiatrist, optometrist, dentist, or veterinarian. The second person, the witness, is not required to be a licensed medical professional but must be an employee of the registrant, unless in an Emergency Medical Service (EMS) setting.

(F) The following shall be entered in the controlled substance administration record or a separate controlled substance destruction record when the controlled substance is destroyed in the patient care area: the date and hour of destruction, the drug name and strength, the amount destroyed, the reason for destruction, the patient's name and room number if applicable, and the names or initials of the two (2) persons performing the destruction. The controlled substance administration and destruction records are to be retained for two (2) years and available for inspection by the Department of Health and Senior Services;

(3) In the event the registrant is a hospital, the following procedures are to be used for the destruction of controlled substance(s):

(A) When disposal of controlled substance(s) is in patient care areas—

1. Controlled substances which are contaminated by patient body fluids are to be destroyed by a physician, nurse, or a pharmacist in the presence of another hospital employee;

2. An excess volume of a controlled substance which must be discarded from a dosage unit just prior to use shall be destroyed by a nurse, pharmacist, or physician in the presence of another hospital employee;

3. The remaining contents of opened glass ampules of controlled substance(s) shall be destroyed by a nurse, pharmacist, or physician in the presence of another hospital employee;

4. Single units of single dose packages of controlled substance(s) which are contaminated other than by patient body fluids and are not an infectious hazard, *or* have been removed from their original or security packaging, *or* are partially used, or are otherwise rendered unsuitable for patient use shall be destroyed by a nurse, pharmacist, or physician in the presence of another hospital employee or returned to the pharmacy for destruction;

5. The following shall be entered in the controlled substance administration record or a separate controlled substance destruction record when the controlled substance(s) is destroyed in the patient care area: the date and hour of destruction, the drug name and strength, the amount destroyed, the reason for destruction, and the patient's name and room number. The nurse, pharmacist, or physician and the witnessing hospital employee shall sign the entry. The drug shall be destroyed so that it is beyond reclamation. The controlled substance administration or destruction records are to be retained for two (2) years and available for inspection by Department of Health investigators;

6. All other controlled substances which are not patient contaminated but which are to be disposed of shall be returned to the pharmacy for disposal;

(B) When disposal of controlled substance(s) is in the pharmacy—

1. Single units of controlled substance(s) which are contaminated other than by patient body fluids and are not an infectious hazard, *or* have been removed from their original or security packaging, *or* are partially used, or are otherwise rendered unsuitable for patient use shall be destroyed by a pharmacist in the presence of another hospital employee or held for later destruction;

2. All other controlled substances which are not patient contaminated but are to be disposed of shall be placed in a suitable container for storage and disposed of as described in section (1) of this rule.

[(4) If the registrant administers controlled substances and is not a hospital, the following procedures are to be used for the destruction of controlled substances:

(A) Controlled substances which are contaminated by patient body fluids are to be destroyed, in the presence of another employee, by the registrant or designee authorized to administer;

(B) An excess volume of a controlled substance which must be discarded from a dosage unit just prior to use is to be destroyed, in the presence of another employee, by the registrant or designee authorized to administer;

(C) The remaining contents of opened glass ampules of controlled substances which are not patient contaminated are to be destroyed, in the presence of another employee, by the registrant or designee authorized to administer;

(D) When the controlled substance is destroyed by the registrant or designee authorized to administer, the following shall be entered in the controlled substances administration records or a separate controlled substances destruction record: the date and amount destroyed, the reason for destruction and the registrant's name and address. The registrant or designee doing the destruction and the witnessing employee shall sign the entry. The drug shall be destroyed so that it is beyond reclamation. The controlled substances administration or destruction records are to be retained for two years and available for inspection by Department of

Health investigators;

(E) All other controlled substances which are not patient-contaminated but are to be disposed of shall be placed in a suitable container for storage and disposed of as described in section (1) of this rule.]

(4) Collection Receptacle Boxes for Patients' Unwanted Controlled Substance Prescriptions.

(A) Hospitals, pharmacies, narcotic treatment programs, and long-term care facilities are authorized to install collection receptacle boxes or participate in a DEA approved mail-back method to collect unwanted controlled substance prescription medications from patients. Registrants must comply with federal regulations regarding security and record keeping. Collection receptacles shall be used only for patients' unwanted medications and not for the expired or unwanted stock of a practitioner or facility.

(B) All facilities and locations with collection receptacle boxes and mail-back systems shall comply with federal regulations.

1. Patients' medications from long-term care facilities and narcotic treatment programs shall be placed in a receptacle within three (3) days of the expiration date on the medication; upon a discontinuation of use authorized by a prescriber; or upon the death of a patient.

2. Collection receptacle boxes shall be installed, maintained, and managed by a retail pharmacy or hospital pharmacy.

(C) Record keeping for collection receptacle boxes. Registrants or their employees shall not inventory the contents of the collection receptacle box. The collection receptacle box is to be opened by two (2) people; one (1) shall be an employee of the pharmacy and the other may be an employee of the facility receiving pharmaceutical services. All registrants with collection receptacle boxes shall maintain a perpetual log that documents entry into the collection receptacle box, changing of liners, and transfers of drugs from the registrant to a reverse distributor. These logs shall be maintained on file at the registered location for inspection and shall document the date of entries into the collection receptacle box, the names of the employees entering the collection receptacle box, the reason for entering the receptacle, the serial number of a liner being removed, and the serial number of a new liner being installed. This log shall also be used to document the transfer of a liner from the registrant to a reverse distributor by documenting the date of transfer, serial number of the liner, names of the persons involved in the transfer, and the DEA number of the reverse distributor. The log shall also document when the pharmacy changes out the interior liner bags and document the serial number of the bag being removed and of the new bag being installed.

**Title 4—DEPARTMENT OF ECONOMIC
DEVELOPMENT
Division 240—Public Service Commission
Chapter 3—Filing and Reporting Requirements
ORDER OF RULEMAKING**

By the authority vested in the Public Service Commission under section 386.250, RSMo 2016, the commission rescinds a rule as follows:

4 CSR 240-3.105 Filing Requirements for Electric Utility Applications for Certificates of Convenience and Necessity **is rescinded.**

A notice of proposed rulemaking containing the proposed rescission was published in the *Missouri Register* on May 15, 2018 (43 MoReg 979). No changes have been made in the proposed rescission, so it is not reprinted here. This proposed rescission becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended June 14, 2018, and the commission held a public hearing on the proposed rescission on June 19, 2018. The commission received timely written comments from the staff of the commission; the Office of the Public Counsel; Dogwood Energy, LLC; Union Electric Company, d/b/a Ameren Missouri; Ameren Transmission Company of Illinois (ATXI); Kansas City Power & Light Company and KCP&L Greater Missouri Operations Company (KCP&L/GMO); The Empire District Electric Company; the Missouri Division of Energy; and Wind on the Wires. Kevin Thompson, representing the commission's

staff, and Natelle Dietrich, on behalf of staff; Hampton Williams, Public Counsel; James Fischer, representing KCP&L/GMO; Paul Boudreau, representing Empire; Marc Poston, representing the Division of Energy; Sean Brady, representing Wind on the Wires; James Lowery, representing Ameren Missouri and ATXI, and Thomas Byrne, on behalf of Ameren Missouri, appeared at the hearing and offered comments.

The commission has proposed to rescind this Chapter 3 rule, revise its contents, and promulgate a new rule in Chapter 20. Most of the comments address the provisions of the new Chapter 20 rule and will be addressed in the final order of rulemaking for that rule. Only those comments regarding the rescission of the Chapter 3 rule will be addressed in this order of rulemaking.

COMMENT #1: Staff explained that the rescission of this Chapter 3 rule and the promulgation of a new Chapter 20 rule is designed to simplify the commission's rules by combining most, if not all, electric-only rules into a single electric utility chapter.

RESPONSE: The commission thanks staff for its explanation.

COMMENT #2: Public Counsel's written comment points out that the rescission of the Chapter 3 rule and its re-promulgation as a Chapter 20 rule is contrary to the commission's stated intent when it created Chapter 3 in 2002 to gather all procedural requirements for all utilities into a single chapter of its rules.

RESPONSE: The commission has changed its view on the collection of all procedural requirements for all utilities into a single chapter of its rules. The commission's experience since 2002 has shown that collecting all procedural requirements into a single chapter has created more confusion than it relieved as stakeholders must consult two (2) or more distinct chapters of the rules to be sure they have found all relevant rule requirements. The commission will continue to move those Chapter 3 procedural rules that affect a single utility classification into the rules that apply to that utility classification as it is appropriate to do so.

**Title 4—DEPARTMENT OF ECONOMIC
DEVELOPMENT
Division 240—Public Service Commission
Chapter 20—Electric Utilities
ORDER OF RULEMAKING**

By the authority vested in the Public Service Commission under section 386.250, RSMo 2016, the commission adopts a rule as follows:

4 CSR 240-20.045 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on May 15, 2018 (43 MoReg 979-981). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended June 14, 2018, and the commission held a public hearing on the proposed rule on June 19, 2018. The commission received timely written comments from the staff of the commission; the Office of the Public Counsel; Dogwood Energy, LLC; Union Electric Company, d/b/a Ameren Missouri; Ameren Transmission Company of Illinois (ATXI); Kansas City Power & Light Company and KCP&L Greater Missouri Operations Company (KCP&L/GMO); The Empire District Electric Company; the Missouri Division of Energy; and Wind on the Wires. Kevin Thompson, representing the commission's

staff, and Natelle Dietrich, on behalf of staff; Hampton Williams, Public Counsel; James Fischer, representing KCP&L/GMO; Paul Boudreau, representing Empire; Marc Poston, representing the Division of Energy; Sean Brady, representing Wind on the Wires; James Lowery, representing Ameren Missouri and ATXI, and Thomas Byrne, on behalf of Ameren Missouri, appeared at the hearing and offered comments.

COMMENT #1: Subsection (1)(A) defines the term “acquire or acquisition” for purposes of the rule. This definition would be necessary if other provisions of the rule require an electric utility to seek a certificate of convenience and necessity, a CCN, when it acquires existing electric plant from some other entity. Ameren Missouri, KCP&L/GMO, and Public Counsel oppose what they believe is an improper expansion of the commission’s statutory authority to require an electric utility to obtain a CCN before acquiring existing electric plant and thus would delete this definition as unnecessary. During the hearing, staff suggested that the rule be modified to require an electric utility to obtain a CCN when it wants to “operate” existing electric plant that it does not already own, rather than when it seeks to “acquire” such plant. With that change, staff also supports the elimination of this definition. Dogwood would keep the definition, but would insert the word “obtaining” into the definition.

RESPONSE AND EXPLANATION OF CHANGE: The commission will strike the definition of “acquire or acquisition” from the rule and instead will refer to “operation” throughout the rule. Subsequent provisions of the section will be renumbered accordingly.

COMMENT #2: Subsection (1)(B) defines the term “asset,” which are the items of electric plant for which the rule requires an electric utility to seek a CCN. Ameren Missouri and KCP&L/GMO would eliminate the aspects of the definition that would define asset as including assets located outside the state of Missouri, as well as existing assets to be “acquired,” as addressed in comment #1. Dogwood would add “switching station” and “electric transmission line” to the list of described assets. Public Counsel would define “generating plant asset” rather than “asset.” In addition, Public Counsel, as well as Ameren Missouri, expressed concern that use of the word “includes” at the start of the definition is ambiguous in that it does not make it clear whether the definition is exhaustive. Ameren Missouri explains that the utilities must be certain whether they will be required to seek a CCN for a particular project or else they will need to seek a CCN for every project in order to protect themselves from allegations of failing to obtain a CCN when one is needed.

RESPONSE AND EXPLANATION OF CHANGE: The commission will modify the definition of asset to clarify that it includes electric generating plant that is expected to serve Missouri customers and will be included in the applicant’s rate base used to set rates for Missouri customers, whether that plant is in or outside the utility’s existing service territory and in or outside the state of Missouri. The definition will further clarify that a transmission or distribution asset for which a CCN is required would include only assets located outside the utility’s existing service area, but within Missouri. The definition will also be clarified to demonstrate the exhaustive nature of the list by changing “includes” at the start of the definition to “means.”

COMMENT #3: Subsection (1)(C) and its constituent paragraphs and subparagraphs seek to define the term “construction” by specifying five (5) projects that would fit the definition. Again, Public Counsel and Ameren Missouri express concern that use of “includes” at the start of the definition is ambiguous.

RESPONSE AND EXPLANATION OF CHANGE: The commission will change “includes” to “means” at the beginning of the definition to avoid any ambiguity.

COMMENT #4: Paragraph (1)(C)2. would include as “construction,” construction of a new electric transmission line or a rebuild of a transmission line if it would result in a significant increase in the

capacity of the line, or if there is a change in the route or easements associated with the line. Ameren Missouri is concerned this definition would result in an increase in the number of CCNs required by the rule. Additionally, Ameren Missouri is concerned that the term “significant” is ambiguous and does not provide clear guidance on when a CCN will be required. Further, Ameren Missouri, Empire, and KCP&L/GMO indicate the expansion of the definition of construction to include any “rebuild” of an existing asset is contrary to the statute’s requirement for a CCN before beginning “construction.” They contend an asset that is being rebuilt has already been constructed and therefore the statute does not give the commission authority to require a CCN. In addition, Ameren Missouri argues the definition of “construction” must not include any project within the electric utility’s existing service area because to do so would increase the number of CCNs required by the rule.

RESPONSE AND EXPLANATION OF CHANGE: The commission will substantially rewrite the definition of construction in response to the concerns raised in the comments. However, the commission continues to believe a substantial improvement, retrofit, or rebuild of an electric asset does require the issuance of a CCN. To avoid the problems identified by the commenters, the commission will limit the CCN requirement for such projects to those that would increase the utility’s established rate base by ten percent (10%) or more.

COMMENT #5: Paragraph (1)(C)3. would define as construction for which a CCN is required, construction of a new substation or the rebuild of an existing substation that would result in a significant increase in capacity or size of the substation. Again, Ameren Missouri is concerned that this definition would result in an increase in the number of CCNs required by the rule. Additionally, Ameren Missouri is concerned that the term “significant” is ambiguous and does not provide clear guidance on when a CCN will be required. Further, Ameren Missouri, Empire, and KCP&L/GMO indicate the expansion of the definition of construction to include any “rebuild” of an existing asset is contrary to the statute’s requirement for a CCN before beginning “construction.” They contend that an asset that is being rebuilt has already been constructed and therefore the statute does not give the commission authority to require a CCN. In addition, Ameren Missouri argues the definition of “construction” must not include any project within the electric utility’s existing service area because to do so would increase the number of CCNs required by the rule.

RESPONSE AND EXPLANATION OF CHANGE: See the response to comment #4. This particular paragraph has been removed from the rule.

COMMENT #6: Paragraph (1)(C)4. would define as construction for which a CCN is required, construction or rebuild of a gas transmission line that facilitates the operation of an electric generating plant. Again, Ameren Missouri is concerned that this definition would result in an increase in the number of CCNs required by the rule. Additionally, Ameren Missouri is concerned that the term “significant” is ambiguous and does not provide clear guidance on when a CCN will be required. Further, Ameren Missouri, Empire, and KCP&L/GMO indicate the expansion of the definition of construction to include any “rebuild” of an existing asset is contrary to the statute’s requirement for a CCN before beginning “construction.” They contend that an asset that is being rebuilt has already been constructed and therefore the statute does not give the commission authority to require a CCN. In addition, Ameren Missouri argues the definition of “construction” must not include any project within the electric utility’s existing service area because to do so would increase the number of CCNs required by the rule.

RESPONSE AND EXPLANATION OF CHANGE: See the response to comment #4. This particular paragraph has been removed from the rule.

COMMENT #7: Paragraph (1)(C)5. and subparagraphs A.–D. would

define as construction for which a CCN is required, an improvement or retrofit of an electric generating plant that will substantially increase the capacity of the generating plant, materially change the discharges of the plant, increase the useful life of the plant, or increase the utility's rate base by ten percent (10%). Again, Ameren Missouri is concerned that this definition would result in an increase in the number of CCNs required by the rule. Additionally, Ameren Missouri is concerned that the term "significant" is ambiguous and does not provide clear guidance on when a CCN will be required. Further, Ameren Missouri, Empire, and KCP&L/GMO indicate the expansion of the definition of construction to include any "rebuild" of an existing asset is contrary to the statute's requirement for a CCN before beginning "construction." They contend that an asset that is being rebuilt has already been constructed and therefore the statute does not give the commission authority to require a CCN. In addition, Ameren Missouri argues the definition of "construction" must not include any project within the electric utility's existing service area because to do so would increase the number of CCNs required by the rule. Ameren Missouri is also concerned that subparagraph (1)(C)5.D. does not establish a clear baseline to measure a ten percent (10%) increase in the utility's rate base.

RESPONSE AND EXPLANATION OF CHANGE: See the response to Comment #4. This paragraph and its subparagraphs have been removed from the rule, except for subparagraph (1)(C)5.D.'s provision that requires a CCN application for the improvement, retrofit, or rebuild of an asset that will increase the utility's total rate base by ten percent (10%). A baseline has also been established for which to measure the ten percent (10%) increase.

COMMENT #8: Subsection (1)(D) and its constituent paragraphs seek to define what projects are not "construction" and therefore do not require a CCN. Paragraph (1)(D)1. exempts construction of new electric or gas transmission lines if the lines are to be constructed within the electric utility's Missouri certificated service area. Ameren Missouri points out a contradiction between the exemption offered by this paragraph and paragraphs (1)(C)2. and 4., which would require a CCN for such projects. Ameren Missouri urges the commission to amend the rule so that no CCN is required for such projects within the electric utility's service area. Dogwood would add "substation," and "switching station" to the list of exempted projects.

RESPONSE AND EXPLANATION OF CHANGE: The commission will modify this provision of the rule to exclude from the definition of construction the new electric or gas transmission lines constructed within the utility's certificated service lines. Such projects are no longer included within the definition of construction so they no longer need to be excluded in this subsection.

COMMENT #9: Paragraph (1)(D)3. exempts from construction CCN transmission projects where the only relationship to Missouri ratepayers is through the Regional Transmission Organization (RTO) cost allocation process. Public Counsel and Wind on the Wires express concern that this definition is unclear. Neither propose a language change, but Wind on the Wires suggests the commission clarify that the paragraph encompasses Midcontinent Independent System Operator (MISO's) Market Efficiency Projects, Multi-Value Projects, Generator Interconnection projects that are cost shared, and inter-regional projects. Dogwood proposes a language change to tie the relationship to retail rates paid by Missouri ratepayers through a regional cost allocation.

RESPONSE AND EXPLANATION OF CHANGE: See the response to comment #4. This paragraph has been removed from the rule.

COMMENT #10: ATXI proposes to add a definition of "non-incumbent electric provider" to describe such a provider as "a Federal Energy Regulatory Commission-regulated transmission company that does not serve Missouri retail customers." The Division of Energy suggests a definition of "non-incumbent electric provider" is needed

to ensure the rule's provisions do not apply to individual residential, small commercial, or industrial customers who own their own generating resources. Ameren Missouri, KCP&L/GMO, Wind on the Wires, and Division of Energy support ATXI's proposed definition. **RESPONSE AND EXPLANATION OF CHANGE:** The commission will not add the proposed definition, but, instead, will not use the term "non-incumbent electric provider" within the rule.

COMMENT #11: Dogwood proposes a new subsection (2)(A) that would clearly describe and summarize the requirements of the rule by stating when an electric utility must obtain a CCN. Ameren Missouri opposes any provision that would purport to expand the CCN requirements stated in the controlling statute. At the hearing, staff agreed with much of Dogwood's proposal.

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with Dogwood and its staff and will add a new section (2) that succinctly describes when an electric utility must obtain a certificate of convenience and necessity. In addition, because the rule addresses more than just filing requirements, the commission will revise the title of the rule to remove "Filing Requirements for" from the beginning of the title.

COMMENT #12: Public Counsel proposes that the opening statement of section (2) be clarified to make it clear that the additional general requirements of the rule apply only to CCN applications filed by electric utilities.

RESPONSE: The entire rule explicitly applies to electric utilities and there is no need to repeat that fact here. The commission will make no change in response to this comment.

COMMENT #13: Dogwood proposes to change the wording in subsection (2)(A) to require an application to show that granting the application is necessary *and* convenient, rather than necessary *or* convenient.

RESPONSE: The controlling statute requires a showing of necessary *or* convenient. The commission will make no change in response to this comment.

COMMENT #14: Dogwood offers a new subsection (2)(B) that would require an applicant for a CCN to produce evidence that it has complied with all applicable municipal ordinances. Ameren Missouri opposes that suggestion.

RESPONSE: There is no need to explicitly require the additional evidence suggested by Dogwood. The commission will make no change in response to this comment.

COMMENT #15: Ameren Missouri proposes to strike existing subsection (2)(B) because it would apply only to assets acquired or constructed outside Missouri, which Ameren Missouri contends is an unlawful expansion of the commission's statutory authority. Empire and Public Counsel share that position.

RESPONSE AND EXPLANATION OF CHANGE: The commission believes the controlling statute gives it authority to require a CCN where the asset to be constructed or operated is outside this state if it is expected to serve Missouri customers and will be included in the utility's rate base. The word "acquired" will be changed to "operated." See the response to comment #1.

COMMENT #16: Dogwood would make the reference to jurisdiction in subsection (2)(B) plural in recognition of the fact that multiple jurisdictions might be affected.

RESPONSE: Dogwood's proposed change is unnecessary. The commission will make no change in response to this comment.

COMMENT #17: Ameren Missouri proposes to modify subsection (2)(C) to eliminate the sentence that requires initially unavailable items be provided to the commission before authority under the certificate is exercised. In its place, it would require that items needed

to perform a specific portion of the construction is obtained and filed before that portion of the construction commences. KCP&L/GMO commented that the subsection as proposed was a proper clarification. It did not respond to Ameren Missouri's proposed modification. **RESPONSE:** The concerns raised by Ameren Missouri are addressed in the proposed rule and additional clarification is unnecessary. The commission will make no change in response to this comment.

COMMENT #18: Public Counsel notes that subsections (2)(D) and (E) are not general requirements in the same way that subsection (2)(A), (B), and (C) are and suggests they be moved to a different position within the rule.

RESPONSE AND EXPLANATION OF CHANGE: Public Counsel's comment is well taken. Subsections (2)(D) and (E) have been moved to new section (2) and have been renumbered as (2)(B) and (C).

COMMENT #19: Subsection (2)(E) recognizes the commission's authority to make a decisional prudence determination about a decision to construct or acquire electric plant. Ameren Missouri supports the concept of a decisional prudence determination, but would remove references in the rule to acquisition of assets, limiting it to construction only, and would also eliminate the references to specific types of assets. Dogwood proposes a similar edit. KCP&L/GMO takes issue with the portion of the subsection that references a "post-construction review of the project." It would add a clarification that such a review would take place within a subsequent general rate case, not within the CCN application case. Public Counsel would eliminate the subsection because presumably the commission would never approve a CCN where the proposal was contrary to the public interest.

RESPONSE AND EXPLANATION OF CHANGE: The commission has rewritten this subsection, which is now (2)(C), in response to the comments. It will now apply to the operation or construction of "assets." It also clarifies that the determination of decisional prudence will be subject to a "subsequent" review.

COMMENT #20: Ameren Missouri would specifically limit application of section (3) to Missouri service areas of the utility.

RESPONSE AND EXPLANATION OF CHANGE: The commission will not make the change proposed by Ameren Missouri, but will limit application of the section to applications for an area certificate pursuant to section 393.170.2, RSMo.

COMMENT #21: Subsection (3)(A) as proposed requires the application for a CCN to provide a map that identifies where each other entity providing electric service in the area to be certificated is currently providing retail electric service. Public Counsel suggests the map to be provided in subsection (3)(A) be at the same scale as the detailed plat map of the proposed service area required by subsection (3)(D).

RESPONSE: Public Counsel's suggestion regarding the scale of the map is unnecessary. The commission will make no change in response to this comment.

COMMENT #22: Subsection (3)(C) as proposed requires the submission of "the legal description of the service area to be certificated." Public Counsel would change that to "a legal description" in recognition that there may be more than one (1) way to legally describe the service area.

RESPONSE: The commission will make no change in response to this comment.

COMMENT #23: Dogwood proposes to add a reference to "leasing" to the reference to proposed financing in the description of "feasibility study" found in subsection (3)(E). Ameren Missouri opposes that change as capital leases are a means of financing and adding the reference would generate confusion.

RESPONSE AND EXPLANATION OF CHANGE: The commission will make no change in response to this comment. However, the

requirement that the application include a three- (3-) year estimate of construction costs is unnecessary and will be removed from the rule.

COMMENT #24: Dogwood would add a new subsection (3)(F) that would require the applicant to provide a copy of its charter. Ameren Missouri opposes that requirement as unnecessary.

RESPONSE: Dogwood's proposal is unnecessary. The commission will make no change in response to this comment.

COMMENT #25: Dogwood would add a new subsection (3)(G) that would require the applicant to provide a verified statement of the president or secretary of the corporation showing it has received the required consent of the proper municipal authorities. Ameren Missouri opposes that requirement as unnecessary.

RESPONSE: Dogwood's proposal is unnecessary. The commission will make no change in response to this comment.

COMMENT #26: Section (4) describes what is to be filed as part of an application for a CCN to acquire an existing asset. The proposed language describes an application to "acquire assets." Dogwood suggests that be changed to "acquire an asset."

RESPONSE AND EXPLANATION OF CHANGE: The commission will change "acquire" to "operated." See the response to comment #1.

COMMENT #27: Ameren Missouri, KCP&L/GMO, and Empire urge the Commission to delete the entire section (4) because they believe requiring the utilities to seek a CCN when seeking to acquire an existing asset is beyond the authority granted to the commission by the controlling statute.

RESPONSE AND EXPLANATION OF CHANGE: The commission will change "acquire" to "operated." See the response to comment #1.

COMMENT #28: Subsection (4)(A) requires an application to acquire assets include a description of the asset to be acquired. Dogwood advises the commission to add "including location" to that requirement.

RESPONSE: The change proposed by Dogwood is unnecessary. The commission will make no change in response to this comment.

COMMENT #29: Subsection (4)(C) requires an application to acquire assets to include the purchase price and plans for financing the acquisition. Dogwood would add "or the terms of the proposed capital lease" to the requirement. Ameren Missouri opposes that change as unnecessary as a capital lease would be a part of the plan for financing the acquisition. Ameren Missouri says that if the language is included, it should say "including the terms of any capital lease used in the financing."

RESPONSE: The change proposed by Dogwood is unnecessary. The commission will make no change in response to this comment.

COMMENT #30: Subsection (4)(D) requires an application to acquire assets to include "plans and specifications for the utility system." Dogwood suggests the reference to "utility system" is undefined and should be changed to "asset."

RESPONSE AND EXPLANATION OF CHANGE: The commission will make the change proposed by Dogwood.

COMMENT #31: Dogwood asks the commission to add a new subsection (4)(E) to require an application to acquire assets to include evidence that the electric utility has used a competitive bidding process to evaluate other reasonable alternatives. Ameren Missouri opposes that proposal.

RESPONSE AND EXPLANATION OF CHANGE: The commission disagrees with Dogwood's proposal to create a new subsection to require submission of evidence that competitive bidding has been used. However, the commission will incorporate a new subsection

(6)(H) that addresses competitive bidding.

COMMENT #32: Section (5) describes what is to be filed as part of an application for a CCN to construct an asset. Dogwood asks the commission to include language to clarify that this section does not apply to applications for CCNs to construct electric or gas transmission lines.

RESPONSE AND EXPLANATION OF CHANGE: The commission disagrees with Dogwood's comment, but will clarify that the rule applies to applications for a line certificate under section 393.170.1, RSMo.

COMMENT #33: Dogwood suggests subsection (5)(B) be modified to require a list of shared easements be included along with information about other facilities that will be affected by the proposed construction.

RESPONSE: Dogwood's suggested revision is unnecessary. The commission will make no change in response to this comment.

COMMENT #34: Dogwood suggests subsection (5)(C) be modified to refer to "asset" in place of "electric generating plant, substation, or gas transmission line that facilitates the operation of electric generating plant." Ameren Missouri makes the same suggestion.

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with the comment and will make the proposed change to this subsection.

COMMENT #35: Dogwood suggests subsection (5)(D) be modified to refer to "asset" in place of "electric generating plant, substation, or gas transmission line that facilitates the operation of electric generating plant." Ameren Missouri makes the same suggestion. Empire suggests the entire subsection be deleted as unnecessary and unworkable.

RESPONSE AND EXPLANATION OF CHANGE: The new definition of "asset" found in subsection (1)(A) makes the distinction between sections (5) and (6) unnecessary. See response to comment #43. This requirement will appear as subsection (5)(D) in the final rule. See response to comment #47. Because of that consolidation, this subsection is unnecessary and will be removed from the rule.

COMMENT #36: Subsection (5)(E) directs the applicant for a CCN to submit "an indication" of certain information. Public Counsel and Ameren Missouri suggest "an indication" be changed to "a statement." Ameren Missouri suggests the subsection be modified to refer to "asset" in place of "electric generating plant, substation, or gas transmission line that facilitates the operation of electric generating plant." Dogwood would simplify the subsection to require "A description of any common plant included in the construction project."

RESPONSE AND EXPLANATION OF CHANGE: The new definition of "asset" found in subsection (1)(A) makes the distinction between sections (5) and (6) unnecessary. See response to comment #43. This requirement will appear as subsection (5)(E) in the final rule. See response to comment #48. Because of that consolidation, this subsection is unnecessary and will be removed from the rule.

COMMENT #37: Subsection (5)(F) directs the applicant for a CCN to submit its plans for financing the asset to be constructed. Dogwood suggests the reference to "electric generating plant, substation, or gas transmission line that facilitates the operation of electric generating plant" be changed to "asset." Ameren Missouri suggests the phrase be changed to "project."

RESPONSE AND EXPLANATION OF CHANGE: The new definition of "asset" found in subsection (1)(A) makes the distinction between sections (5) and (6) unnecessary. See response to comment #43. This requirement will appear as subsection (5)(F) in the final rule. See response to comment #49. Because of that consolidation, this subsection is unnecessary and will be removed from the rule.

COMMENT #38: Subsection (5)(G) directs non-incumbent electric providers that are applying for a CCN to submit an overview of their plans for operating and maintaining the proposed asset. Dogwood suggests the reference to "electric generating plant, substation, or gas transmission line that facilitates the operation of electric generating plant" be changed to "asset." Ameren Missouri makes the same suggestion. Dogwood and Division of Energy also express concern about the phrase "non-incumbent electric provider," suggesting it could be better defined. Public Counsel suggests the requirement of the subsection should not be limited to non-incumbent electric providers, however that phrase is defined.

RESPONSE AND EXPLANATION OF CHANGE: The new definition of "asset" found in subsection (1)(A) makes the distinction between sections (5) and (6) unnecessary. See response to comment #43. This requirement will appear as subsection (5)(I) in the final rule. See response to comment #50. Because of that consolidation, this subsection is unnecessary and will be removed from the rule.

COMMENT #39: Subsection (5)(H) directs non-incumbent electric providers that are applying for a CCN to submit an overview of their plans for restoration of service after an unplanned outage. Dogwood suggests the reference to "electric generating plant, substation, or gas transmission line that facilitates the operation of electric generating plant" be changed to "asset." Ameren Missouri makes the same suggestion. Dogwood and Division of Energy also express concern about the phrase "non-incumbent electric provider," suggesting it could be better defined. Public Counsel suggests the requirement of the subsection should not be limited to non-incumbent electric providers, however that phrase is defined.

RESPONSE AND EXPLANATION OF CHANGE: The new definition of "asset" found in subsection (1)(A) makes the distinction between sections (5) and (6) unnecessary. See response to comment #43. This requirement will appear as subsection (5)(J) in the final rule. See response to comment #51. Because of that consolidation, this subsection is unnecessary and will be removed from the rule.

COMMENT #40: Subsection (5)(I) would require an applicant for a CCN to submit evidence demonstrating that it used a non-discriminatory process to evaluate whether distributed energy resources, energy efficiency, or renewable energy resources would provide a reasonable alternative to the proposed construction. Dogwood and Division of Energy express concern about the phrase "non-incumbent electric provider," suggesting it could be better defined. Public Counsel suggests the reference to "electric generating plant, substation, or gas transmission line that facilitates the operation of electric generating plant" be changed to "asset." Empire suggests this requirement should be incorporated into the requirements of subsection (2)(E), and Ameren Missouri argues the entire subsection should be removed from the rule as an unnecessary duplication of the commission's Integrated Resource Planning rules in Chapter 22.

RESPONSE AND EXPLANATION OF CHANGE: The new definition of "asset" found in subsection (1)(A) makes the distinction between sections (5) and (6) unnecessary. See response to comment #43. This subsection will be removed from the rule. A new subsection (5)(G) will be included in the final rule which will require only that the applicant provide a description of how the proposed asset relates to the utility's adopted preferred resource plan filed under the commission's Chapter 22 rules.

COMMENT #41: Subsection (5)(J) would require an applicant for a CCN to submit evidence demonstrating that it used a non-discriminatory competitive bidding process to evaluate whether purchased power or alternative energy supplies would be a reasonable alternative to the proposed construction. Dogwood expresses concern about the phrase "non-incumbent electric provider," suggesting it could be better defined. Dogwood also proposes some changes to the wording of the subsection. Empire suggests this requirement should be incorporated into the requirements of subsection (2)(E), Ameren Missouri and KCP&L/GMO argue the entire subsection should be removed

from the rule. Wind on the Wires supports the bidding requirement, and the Division of Energy does not oppose that requirement, but welcomes the economic benefits that result from construction in Missouri.

RESPONSE AND EXPLANATION OF CHANGE: The new definition of “asset” found in subsection (1)(A) makes the distinction between sections (5) and (6) unnecessary. See response to comment #43. The subsection requiring competitive bidding will be removed from the rule. See response to comment #53. Subsection (5)(H) in the final rule relates to competitive bidding, but requires only an overview of whether and how such bidding was used in the planning of the project.

COMMENT #42: Subsection (5)(K) would require an applicant for a CCN to submit evidence demonstrating that it utilized or will utilize a competitive bidding process for entering into contracts related to the construction project. Dogwood expresses concern about the phrase “non-incumbent electric provider,” suggesting it could be better defined. Dogwood also suggests the reference to “electric generating plant, substation, or gas transmission line that facilitates the operation of electric generating plant” be changed to “asset.” Ameren Missouri and KCP&L/GMO argue the entire subsection should be removed from the rule.

RESPONSE AND EXPLANATION OF CHANGE: The new definition of “asset” found in subsection (1)(A) makes the distinction between sections (5) and (6) unnecessary. See response to comment #43. The subsection requiring competitive bidding will be removed from the rule. See response to comment #53. Subsection (5)(H) in the final rule relates to competitive bidding, but requires only an overview of whether and how such bidding was used in the planning of the project.

COMMENT #43: Section (6) describes additional information to be filed as part of an application for a CCN to acquire or construct an electric transmission line. Dogwood would expand the requirements of the section to the acquisition or construction of a natural gas transmission line used to serve an electric generating asset. Ameren Missouri and Empire would limit application of the section to proposed construction projects, not acquisition of existing transmission lines.

RESPONSE AND EXPLANATION OF CHANGE: The commission finds that including a separate section of the rule regarding applications to construct a transmission line is unnecessary. The relevant portions of section (6) will be incorporated into section (5) regarding applications for a line certificate under section 393.170.1, RSMo.

COMMENT #44: Ameren Missouri suggests subsections (6)(A)–(I) be removed from the rule as duplicative since a transmission line is also an asset covered under section (5).

RESPONSE AND EXPLANATION OF CHANGE: See response to comment #43.

COMMENT #45: Dogwood suggests subsection (6)(B) be modified to require a list of shared easements be included along with information about other facilities that will be affected by the proposed construction.

RESPONSE AND EXPLANATION OF CHANGE: The commission believes this subsection is unnecessary and will remove it from the rule.

COMMENT #46: Dogwood suggests application of subsection (6)(C) not be limited to electric transmission lines.

RESPONSE AND EXPLANATION OF CHANGE: The commission believes this subsection is unnecessary and will remove it from the rule.

COMMENT #47: Dogwood suggests application of subsection (6)(D) not be limited to electric transmission lines. Empire argues

the rule should not require projected completion dates for the proposed construction.

RESPONSE AND EXPLANATION OF CHANGE: The commission will change the subsection to apply to “asset,” not just electric transmission lines. The requirement to describe projected completion dates is necessary and will not be deleted from the rule.

COMMENT #48: Subsection (6)(E) directs the applicant for a CCN to submit “an indication” of certain information. Dogwood would simplify the subsection to require “A description of any common plant included in the construction project.” Public Counsel asks what is a common electric transmission line?

RESPONSE AND EXPLANATION OF CHANGE: The commission will adopt Dogwood’s proposed simplification of the requirement.

COMMENT #49: Dogwood suggests application of subsection (6)(F) not be limited to electric transmission lines.

RESPONSE AND EXPLANATION OF CHANGE: The commission will adopt Dogwood’s suggestion and will change “electric transmission line” to “asset.”

COMMENT #50: Subsection (6)(G) directs non-incumbent electric providers that are applying for a CCN to submit an overview of their plans for operating and maintaining the proposed electric transmission line. Dogwood and Division of Energy express concern about the phrase “non-incumbent electric provider,” suggesting it could be better defined. Public Counsel suggests the requirement of the subsection should not be limited to non-incumbent electric providers, however that phrase is defined. Dogwood also suggests application of the subsection not be limited to electric transmission lines.

RESPONSE AND EXPLANATION OF CHANGE: The application of the subsection will be expanded by changing “electric transmission line” to “asset.” The phrase “non-incumbent electric provider” has been removed from the rule.

COMMENT #51: Subsection (6)(H) directs non-incumbent electric providers that are applying for a CCN for an electric transmission line to submit an overview of their plans for restoration of service after an unplanned outage. Dogwood and Division of Energy express concern about the phrase “non-incumbent electric provider,” suggesting it could be better defined. Dogwood also suggests application of the subsection not be limited to electric transmission lines. Public Counsel suggests the requirement of the subsection should not be limited to non-incumbent electric providers, however that phrase is defined.

RESPONSE AND EXPLANATION OF CHANGE: The application of the subsection will be expanded by changing “electric transmission line” to “asset.” The phrase “non-incumbent electric provider” has been removed from the rule. This subsection is (5)(I) in the final rule.

COMMENT #52: Subsection (6)(I) would require an applicant for a CCN for an electric transmission line to submit evidence demonstrating that it utilized or will utilize a competitive bidding process for entering into contracts related to the construction project. Dogwood expresses concern about the phrase “non-incumbent electric provider,” suggesting it could be better defined. Dogwood also suggests application of the subsection not be limited to electric transmission lines. Empire suggests this requirement should be incorporated into the requirements of subsection (2)(E), Ameren Missouri and KCP&L/GMO oppose the bidding requirement and argue the entire subsection should be removed from the rule.

RESPONSE AND EXPLANATION OF CHANGE: The subsection requiring competitive bidding has been removed from the rule. New subsection (5)(H) relates to competitive bidding, but requires only an overview of whether and how such bidding was used in the planning of the project.

COMMENT #53: Subsection (6)(J) and paragraphs (6)(J)1.-4. describe the notice that an applicant for a CCN to acquire or construct an electric transmission line is to provide to residents along the route of the transmission line. The Division of Energy indicated its support for the rule as proposed. Dogwood generally supports the notice requirement, but proposes modified language that would expand the notice requirement to include natural gas transmission pipelines as well as electric transmission lines. Ameren Missouri opposes that expansion of the rule. Public Counsel would also expand the rule to require notice regarding natural gas transmission lines, and would add a notice requirement when a new generating plant or associated substation is proposed. Ameren Missouri supports the concept behind the notice requirement, but would modify the rule's language to make it clear that the rule does not give landowners an enforceable right to receive actual notice.

RESPONSE AND EXPLANATION OF CHANGE: The commission believes the notice requirements are appropriate as proposed and will not modify the rule except to clarify that it applies to "transmission" substation locations as well as electric transmission line routes.

COMMENT #54: KCP&L/GMO suggests the reference to "notice" in subsection (6)(J) and in paragraph (6)(J)1. be expanded to "notice of the application."

RESPONSE AND EXPLANATION OF CHANGE: The commission believes the notice requirements are appropriate as proposed and will not modify the rule except to clarify that it applies to "transmission" substation locations as well as electric transmission line routes.

COMMENT #55: KCP&L/GMO and Dogwood propose to change "any letter" in paragraph (6)(J)2. to "notice" or "notice of the application."

RESPONSE AND EXPLANATION OF CHANGE: The commission believes the notice requirements are appropriate as proposed, but the term "letter" in this paragraph is potentially confusing and will be changed to "notice of the application."

COMMENT #56: KCP&L/GMO suggests paragraph (6)(J)2. be revised to change all references to "utility" to "applicant."

RESPONSE: The proposed change is unnecessary. The commission will make no change in response to this comment.

COMMENT #57: KCP&L/GMO suggests all references to "persons" in paragraphs (6)(J)3. and 4. be changed to "landowners."

RESPONSE: The proposed change is unnecessary. The commission will make no change in response to this comment.

COMMENT #58: KCP&L/GMO suggests paragraph (6)(J)3. be clarified to distinguish the public meeting required by the rule from a public hearing conducted by the commission.

RESPONSE: The proposed change is unnecessary. The commission will make no change in response to this comment.

COMMENT #59: Wind on the Wires proposes the commission create a new section that would explicitly afford an applicant the ability to request expedited treatment for its application.

RESPONSE: An applicant may request expedited treatment under the commission's general rules of procedure and it is not necessary to include a reminder of such procedures in this rule. The commission will make no changes in response to this comment.

COMMENT #60: The Division of Energy and Public Counsel pointed out that the proposed rule should be revised to incorporate the provisions of SB-564, which will go into effect before the rule will become effective.

RESPONSE AND EXPLANATION OF CHANGE: Subsection (1)(D), the provision that excludes certain assets from the definition of construction for which a CCN is required, has been modified to incorporate the provisions of SB-564, including the exemption of pro-

jects with a capacity of one (1) megawatt or less and the construction of utility-owned solar facilities.

COMMENT #61: Ameren Missouri suggests a new section to require the applicant to file additional information where a different legal entity will own the asset during construction before transferring it to the utility when construction is completed.

RESPONSE: The proposed change is unnecessary. The commission will make no change in response to this comment.

COMMENT #62: Ameren Missouri expressed concern that what it described as an expansion of the authority under the statute to require a CCN where none has been required in the past would call into question the legitimacy of existing electric assets that do not have a CCN.

RESPONSE AND EXPLANATION OF CHANGE: The commission does not intend for this rule to impose any additional requirements on existing assets. A statement to that effect has been added to section (7).

COMMENT #63: Ameren Missouri challenges the accuracy of the private cost determination that the proposed rule will not cost private entities more than five hundred dollars (\$500) in the aggregate.

RESPONSE AND EXPLANATION OF CHANGE: The commission has made many modifications in this rule that will have the effect of reducing the regulatory costs that would have been imposed by the rule as proposed. The commission has reassessed the cost of the final rule and a revised private cost fiscal note has been prepared and is attached to this final order of rulemaking.

4 CSR 240-20.045 Electric Utility Applications for Certificates of Convenience and Necessity

PURPOSE: This proposed rule outlines the requirements for applications to the commission, pursuant to section 393.170.1 and 393.170.2, RSMo, requesting that the commission grant a certificate of convenience and necessity to an electric utility for a service area or to operate or construct an electric generating plant, an electric transmission line, or a gas transmission line that facilitates the operation of an electric generating plant.

(1) Definitions. As used in this rule, the following terms mean:

(A) Asset means:

1. An electric generating plant, or a gas transmission line that facilitates the operation of an electric generating plant, that is expected to serve Missouri customers and be included in the rate base used to set their retail rates regardless of whether the item(s) to be constructed or operated is located inside or outside the electric utility's certificated service area or inside or outside Missouri; or

2. Transmission and distribution plant located outside the electric utility's service territory, but within Missouri;

(B) Construction means:

1. Construction of new asset(s); or

2. The improvement, retrofit, or rebuild of an asset that will result in a ten percent (10%) increase in rate base as established in the electric utility's most recent rate case;

(C) Construction does not include:

1. The construction of an energy generation unit that has a capacity of one (1) megawatt or less; or

2. The construction of utility-owned solar facilities as required under section 393.1665, RSMo;

3. Periodic, routine, or preventative maintenance; or

4. Replacement of equipment or devices with the same or substantially similar items due to failure or near term projected failure as long as the replacements are intended to restore the asset to an operational state at or near a recently rated capacity level.

(2) Certificate of convenience and necessity.

(A) An electric utility must obtain a certificate of convenience and necessity prior to—

1. Providing electric service to retail customers in a service area pursuant to section 393.170.2, RSMo;

2. Construction of an asset pursuant to section 393.170.1, RSMo; or

3. Operation of an asset pursuant to section 393.170.2, RSMo.

(B) The commission may, by its order, impose upon the issuance of a certificate of convenience and necessity such condition or conditions as it may deem reasonable and necessary.

(C) In determining whether to grant a certificate of convenience and necessity, the commission may, by its order, make a determination on the prudence of the decision to operate or construct an asset subject to the commission's subsequent review of costs and applicable timelines.

(D) An electric utility must exercise the authority granted within two (2) years from the grant thereof.

(3) In addition to the general requirements of 4 CSR 240-2.060(1), the following additional general requirements apply to all applications for a certificate of convenience and necessity, pursuant to sections 393.170.1 and .2, RSMo:

(A) The application shall include facts showing that granting the application is necessary or convenient for the public service;

(B) If an asset to be operated or constructed is outside Missouri, the application shall include plans for allocating costs, other than regional transmission organization/independent system operator cost sharing, to the applicable jurisdiction; and

For purposes of this notice, land is directly affected if a permanent easement or other permanent property interest would be obtained over all or any portion of the land or if the land contains a habitable structure that would be within three hundred (300) feet of the centerline of an electric transmission line.

2. Any letter sent by applicant as notice of the application shall be on its representative's letterhead or on the letterhead of the utility, and it shall clearly set forth—

A. All persons entitled to notice of the application shall be afforded a reasonable amount of time to pose questions or to state their concerns;

4. If applicant, after filing proof of compliance, becomes aware of a person entitled to receive notice of the application to whom applicant did not send such notice, applicant shall, within twenty (20) days, provide notice to that person by certified mail, return receipt requested, containing all the required information. Applicant shall also file a supplemental proof of compliance regarding the additional notice.

(7) Provisions of this rule do not create any new requirements for or affect assets, improvements, rebuilds, or retrofits already in rate base as of the effective date of this rule. Provisions of this rule may be waived by the commission for good cause shown.

REVISED PRIVATE COST: The cost to the department may range from zero to one hundred thousand dollars (\$0-\$100,000) versus the less than five hundred dollars (\$500), which was submitted in the original estimate.

- I. Department Title: Department of Economic Development
Division Title: 240-Public Service Commission
Chapter Title: Chapter 20 – Electric Utilities**

Rule Number and Title:	4 CSR 240-20.045 Electric Utility Applications for Certificates of Convenience and Necessity
Type of Rulemaking:	Final Order of Rulemaking

II. SUMMARY OF FISCAL IMPACT

Estimate of the number of entities by class which would likely be affected by the adoption of the rule:	Classification by types of the business entities which would likely be affected:	Estimate in the aggregate as to the cost of compliance with the rule by the affected entities:
4	Investor Owned Electric Utilities	\$0-\$100,000

III. WORKSHEET

Two affiliated investor-owned electric utilities (IOUs) indicated the requirement to obtain a CCN for an asset located outside Missouri would cause them to incur significant litigation expense. The fiscal impact of this provision is estimated between \$0 and \$100,000. See Section IV for assumptions.

They also indicated the requirement to get a CCN for “the improvement, retrofit or rebuild” of an asset will cause them to incur significant litigation expense. This requirement was modified by adding a limitation that a CCN only needs to be obtained when the improvement, retrofit or rebuild will result in a 10 percent increase in rate base as established in the electric utility’s most recent rate case. With this limitation, only one project over the past several years would have required a CCN. Therefore, with the limitation, the fiscal impact of this provision is deemed minimal.

IV. ASSUMPTIONS

The estimated life of the rule is 3 years.

Based on the number of instances over the past 3 years when a CCN would have been required had the provisions of this final order of rulemaking been effective at the time of the transaction, it is assumed that one new CCN, not already required by Commission rule provisions, will be required during the estimated life of the rule. Since the extent and the nature of litigation associated with that case is unknown until it is contested, it was assumed that the CCN case would result in an additional cost of \$0 to \$100,000 as a result of the final order of rulemaking.

COMMENT #1: A department employee commented that the remaining portion of the rule uses the term “covered equipment” and the definition for that term would be removed with this proposed amendment.

RESPONSE AND EXPLANATION OF CHANGE: Because the statute defines “computer materials” and “equipment” and provides

exceptions to coverage, the commission does not believe regulatory definitions are necessary and no change was made to address this comment.

After the public comment period, staff learned that both standards referenced in the current rule are outdated, and have been absorbed into a newer standard published by Sustainable Electronics Recycling International (SERI). For this reason, the commission will adopt changes to the proposal to eliminate the outdated references and to update and add the current SERI standards in the rule.

10 CSR 25-19.010 Electronics Scrap Management

(1) The department adopts, as standards for recycling or reuse of covered equipment under this rule, the standards in R2:2013, “The Responsible Recycling (“R2”) Standard for Electronics Recyclers,” dated September 1, 2014; the supporting document R2:2013 “R2 Code of Practices: R2 Certification Process Requirements” dated July 1, 2013, and the R2:2013 “Formal Interpretation #1.0” with an effective date of February 1, 2017, all issued by the Sustainable Electronics Recycling International (SERI) Board of Directors, PO Box 721, Hastings, MN, 55033. Each of these standards is hereby incorporated by reference without any later amendments or additions. The adopted standards apply to covered equipment used by an individual primarily for personal or home business use and returned to the manufacturer by a consumer or collected by a manufacturer in this state and do not impose any obligation on an owner or operator of a solid waste facility.
